4. NOTABLE FEATURES, HISTORICAL SIGNIFICANCE AND DESCRIPTION OPEN TO PUBLIC <u>no</u> <p>This is a large frame house with an "A" roof set well back from the street in a grove of trees and surrounded by a stone wall. The house is three bays wide with a door on the left and is 2 bays deep. All of the windows are 6/6. A large dormer gable has been added to the front of the roof. There is also a two storey porch which runs along the left side of the house. The chimney is also built into the left side. A large 2 1/2 storey addition has been added to the rear. A heavy molded cornice runs along the roof line, below it is a row of modillions.</p> <p>This house has been altered somewhat by its dormer and large porch but retains the flavor of the Federal houses in Princess Anne. As is characteristic with all these houses, beaded clapboard is used effectively to create a pleasing texture on the walls.</p> <p>Although this house is well-kept up, the lot next to it appears to be being readied for some construction, possibly of a commercial nature. This should not be allowed for it will harm the character of the Colgan House.</p>
